CARE NETRAM'S IMPACT IN CHHOTIPADA, ODISHA

Work & productivity for a daily wage earner improved with clear vision.

Soubhagya Ranjan Kuanr, a 53-year-old working in OMED milk in Cuttack district's Chhotipada village, shared his experience, saying,

“

I had cataract surgery three years ago, but I've been struggling to work on the computer due to vision problems, and I couldn't afford a medical test. Fortunately, Care Netram organized a free eye test camp in Chhotipada, right before their awareness program. Thanks to this initiative, I got my eyes tested, and now, with these affordable ODG glasses, I can see clearly and perform computer work more effectively. I'm truly grateful for the free eye test and these cost-effective glasses. I want to express my sincere thanks to Care Netram."

However, due to his family's limited resources and the distance to the hospital, he couldn't undergo an eye examination until one day when he stumbled upon Care Netram's eye care camp at his village. After the examination, he received glasses that transformed his daily life. With clear vision, he now confidently rides his bicycle and crosses roads without any trouble.

BREAKING FREE FROM THE BONDAGE OF CATARACTS

Cataracts, the silent thieves of sight, cruelly steal away not only vision but also independence. In rural villages, where access to sight-saving treatments is limited, people suffer in silence.

Care Netram, with compassion as its guiding light, extends a helping hand to sponsor cataract surgeries for these vulnerable individuals. Through this act of kindness, we restore their eyesight, granting them not just vision but also the precious gift of renewed hope and well-being.
