Field Force Of Good Vision
Technicians And Optometrists

Area of Operation: Odisha, Jharkhand and West Bengal

Celebrating 5 Glorious Years Of Providing Good Vision

Care Netram team and country coordinators gathered together to **celebrate 5 impactful years** of successfully providing good vision to the unprivileged. We published Care Netram Impact Book that records our societal impact in the last 5 years.

New Mobile Vision Care Van Inaugurated

We inaugurated a new mobile vision care van to reach 'hard-to-reach' communities and ensure vision care for all.

A mobile eye clinic makes it possible for our Good Vision Technicians to offer their services in a multitude of locations. These mobile clinics make it possible to treat patients across a wider geographic area as compared to simple brick-and-mortar vision centres. Our mobile clinic will be utilized to serve rural communities, which have limited access to quality vision care services. Mobile eye clinics will also be a part of our eye health camps in remotest areas.

Visit Of Our Country Coordinators

Ms. Antje Christ, Care Netram India Coordinator from Germany and **Mr. Hebert Amrein** from 'One Dollar Glasses' Switzerland visited our camp sites in Odisha, Jharkhand and West Bengal.

We thank the dedicated ODG Team, who take the time and effort to work with Care Netram and help us to attain greater heights of success.

New Care Netram Vision Centre Inaugurated

We inaugurated Care Netram Vision Centre at Johar Hospital - Asha Vihar Bokaro Jharkhand.

Care Netram Vision Centre was inaugurated by **Mr. Hebert Amrein** our partner from **ODG Switzerland**. The Vision Centre aims to increase accessibility & affordability of vision care in the last mile.

Johar Hospital was founded in the year **1995**, about 25 km south of Bokaro Steel City amidst a tribal (Adivasi) region. It occupies 7.5 acres of land, particularly established for the Adivasi people in that region. The WHO-certified non-profit health care organization is operational with 65 workers. It is completely financed by donations.

Another Milestone Achieved

Care Netram achieves the milestone of completing **25,000 eye screenings** for school children within a year. We are grateful to Ein Herz für Kinder for sponsoring the project.

We Envision A World Free From
Avoidable Blindness

CARE Netram
Good Vision 

Good **Vision** | Good **Life**
