REACHING THE UNREACHABLE IN RURAL AREAS

Organized Eye Camp In A Small Village At Sundargarh District, Odisha

70 million vision impaired people in India, among which poor rural people tend to suffer most due to **unavailable vision care services**.

Care Netram takes steps to render **mobile free eye screening services** in rural communities and dispense **vision supporting eye wears at affordable rate** to the needy.

In December 2022 we organized eye camp at Sukahanala, a small village of Sundargarh district in the state of Odisha. Eye care facilities are far from reach for the villagers in this area. In this camp, **75+ people have screened their eyes** and got eye glasses at their door step.

IN-SCHOOL VISION SCREENING PROGRAMME

80% of what they learn is through vision. Good vision is critical for a child's academic success and wellbeing.

Visionary problems among children hinder their learning capability and their school performance. Early detection of eye problems can prevent long term vision damage.

Thus, we at Care Netram have conducted eye screening programs at rural schools in collaboration with UCCI Ladies Forum, Bhubaneshwar. We offered eye glasses to the students in need along with referral for eye diseases.

ENDING THE YEAR WITH POSITIVE IMPACT

Eye Camp organized for a local community in Dhenkanal district, Odisha.

On 31st December 2022, we organized an eye screening camp at Sanjapada Gramapanchayat, Dhenkanal district, Odisha. **100+** villagers have screened their eyes and received their eye-glasses. The attendees of the local community were pleased with our efforts and appreciated our work.

GIVING THE GIFT OF VISION

We continue in our efforts to give the gift of vision to the needy by sponsoring cataract surgeries.

CELEBRATING RESTORED SIGHT

There is nothing more powerful than knowing that we can change a person's life by restoring sight. That we can all play a small part in their journey.

CareNetram Community Eye Camp Impact Story - Jharkhand

Name: Anup Jaiswal,
Age: 45 Years
Address - Dhanbad

We met Anup Jaiswal, an employee of Dabur Company at our community eye camp organized at Jharkhand. He usually travels to distribute medicines as a part of his job. However, he started facing problems due to blurry vision. While he enjoys his profession, carrying forward with his job became a difficult task. This made him totally insecure about his ability to continue his job. Although he had glasses but did not feel comfortable with them. We screened his eyes and offered him with progressive lens to support his vision. He can now see clearly with our Good Vision Glasses.

Thank you Care Netram, it feels great to have clear vision.

I am back to work with renewed joy and confidence.

DRIVING AWARENESS FOR VISION CARE IN INDIA

Creating awareness is the first step to eradicate curable blindness. We have been conducting door to door awareness campaigns on the importance of vision care.

Our awareness campaigns are conducted to educate rural people on the importance of regular eye check-ups, vision correction and eye care. We distributed leaflets to people and invited them to visit our community eye camps and vision care centres to get their eyes tested.
