REACHING OUT TO RURAL SCHOOLS

- Rural school children are mostly affected due to vision impairment.
- 7 out of 10 school children faces vision blurriness as per estimates.
- Vision impairment creates a massive impact on their education and growth, hampering their childhood.

As per survey, school going children are experiencing an increase in ocular problems post COVID-19 pandemic situation. There has been an increase in myopic children due to the increase in screen time. CareNetram reaches out to rural school children having limited access to vision care and provides free eye checkup.

OUR IMPACT

4000+

students had free eye check ups in Novembers

35+

schools covered by Care Netram in November

Slowing down vision damage by timely eye checkup among school children

We believe good eyesight and early eye treatment can improve their learning and growing capacity.

We support school children attain their dreams by removing the barrier caused by vision impairment. We provide eye checkups and affordable glass to make their eyes fit to achieve their life goals and lead the nation in the future.

EYE HEALTH CHECK UP CAMP

at Nimapara Autonomous College, Nimapara, Puri in association with Care Netram

Inaugurated by **Shri Sameer Ranjan Dash, Hon'ble Minister of School and Mass Education, Govt. of Odisha.**

The initiative is part of **25000 School Children** Free Vision Screening Program by Care Netram.

High end machines used for eye screening

Vision care is provided among the people without compromising on quality. We invest in high end machines for testing and screening eyes.

Kaleidos

Binocular Visual Analyzer

Kaleidos is the most reliable device to detect refractive errors and vision problems.

It is a mobile binocular refractometer and vision analyser that examines both eyes at the same time. It detects refractive errors, eye abnormalities and vision problems by measuring objective refraction in the range of -15D to +15D and dynamic pupil response programmable light stimulations, just by looking for a few seconds into this responsive instrument.

E-SEE

“Reach More, Do More”
advantage

It is a special version of QuickSee™ developed by PlenOptika®

E-see is a high caliber autorefractor. It ensures ease of use and accuracy for ophthalmologists and optometrists with its innovative PlenOptika Wavefront Refractive Engine (WRE) technology which ensures that the testing process is dynamic, smart and intuitive.

PlenOptika WRE technology produces accurate results. Moreover, it offers the accurate results to subjective refraction as compared to conventional autorefractors.

CARE NETRAM VEHICLE INDUCTED!

1st owned CAR and AUTO We are on the wheels!

Having our vehicles helps us to reach communities at large in minimal time. We are reaching out to communities with our vehicles to eradicate curable blindness and regain dignity among rural people.

CATARACT STORIES THAT INSPIRE

Restoring sight Restoring hope

Millions of people suffer from blindness due to inaccessible vision care, especially in low-income states. This leads to possible causes of poverty and ultimately affects the entire community at large. Additionally, it impacts their livelihood and increases dependency on others!

Care Netram team continues its mission to restore poor sight by providing free cataract surgeries to lower income families. Spreading smiles among hundreds of individuals who participated in our vision care awareness program and undertook sight-restoring surgery.

**Threading hope | Eradicating curable
blindness | uplifting lives**

Name: Baiani Sath
Address: Patana BBSR
Age: 56 years

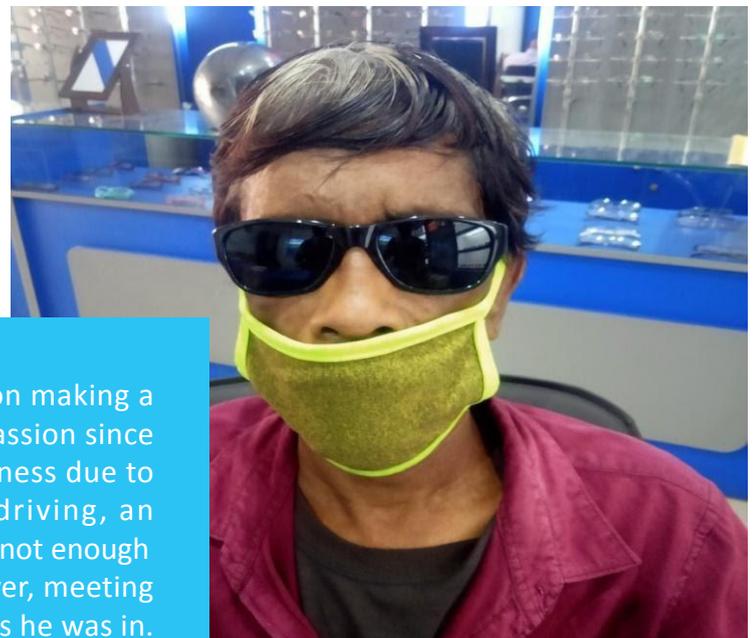

“Baiani Sath found her lost hope!

Baiani Sath of 56 years makes a living out of a small business in Patana to look after her beloved family. She lived happily and contented in a frugal lifestyle until she was struck with poor vision. The small business of Baiani Sath came to a stanching halt as she continued to suffer from cataracts in her eye. However, her ordeal had come to an end as she came to know about the Care Netram eye camp at her village. Having her eye checked, treated and operated on for free, her hope was regained. She remains grateful to Care Netram for restoring her lost hope and enabling her to go back to business. She continuous to live a humble and peaceful life once again.

“I am very happy as my eyes were operated free of charge. I can resume my business now. Thankyou Team” - Baiani Sath

Name: Antaryami Padhiari
Address: Hare Krishnapur BBSR
Age: 55 years

“Out of darkness – into the light!

Antaryami Padhiari of age 55, is a driver by profession making a living out of it. He enjoys driving as it has been his passion since his boyhood days. However, he was pulled into darkness due to cataracts in his eyes. This was a red flag to his driving, an impediment in his passion of driving. His savings were not enough to go for a treatment and restore his eyesight. However, meeting Care Netram team had driven him out of this darkness he was in. With free eye treatment and eye surgery he is back into the light with good eyesight. He is happy to continue his passion of driving and making a living out of it.

“Many thanks to Care Netram team, I can drive well now” - ANTARYAMI PADHIARI
