ceremony.

REACHING THE UNREACHABLE

Uplifting lives in rural areas with sustainable vision care

Making a revolutionary change in the society

With an aim to reach the unreachable...

As per WHO, there are around 2.2 billion people with vision impairment among which 1 billion cases are yet to be addressed, despite the efforts of world-class organizations.

This is due to limited availability of vision care centre's or vision care programs in unreachable remote areas.

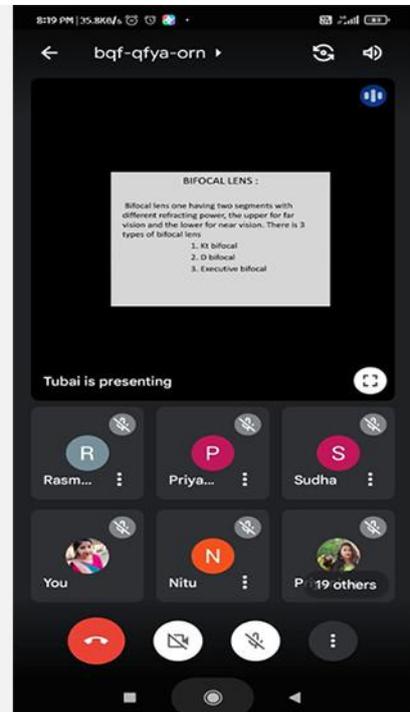

In the beginning of 2022, Care Netram undertakes a mission to raise awareness in unreachable areas about preventing blindness with vision care.

In its endeavor to increase sustainable vision care, Care Netram is taking efforts to train rural youths as a primary eye care service provider. The youths has been a major supporter of creating awareness and spreading knowledge about vision care.

The volunteers visit door to door to raise awareness about preventable blindness.

Internal Virtual Training

Ensuring continuous learning

Virtual training for GVT'S and all vision care providers

Continuous learning enhances the efficiency of ground team which in turn ensures high quality service to the people. Care Netram takes initiative to conduct training programs for all primary eye care providers.

Well trained eye care providers ensures that quality eye care service is offered to the beneficiaries.

A small effort and little help goes a long way

Being a helping hand to the needy!

HAPPY PATIENTS

Name: Jamila Bibi

Address: Bokaro district of Jharkhand

Age: 59 years

Jamila Bibi is a homemaker with two children. However vision impairment disabled her to perform her daily chores and look after her family. She was brought to Care Netram camp, where she got her eyes tested for free. She bought affordable glasses from Care Netram which enabled her to have clear vision again. She remains grateful to Care Netram and its quality services.

Name: Srihari Parial

Address: Tulasipur, Cuttack Odisha

Age: 56 years

Mr Srihari Parial works as a postal worker in his village. He makes a simple living out of his profession. However, old age was not by his side and he started facing visual problems. He got his eye tested free of cost in Cuttack Vision Centre and bought a pair of bifocal glasses at a nominal amount. He also got his old glasses repaired free of cost. He is delighted with the services and he will surely get back to the vision centre whenever his eyes need testing.

Inspiring stories

Giving the gift of good vision

Name: Labanga Jena

Address: Harianta patana, Bhubaneswar

Age: 60 years

Labanga Jena manages her joint family single handedly out of money she earns. Life turned upside down as she started facing vision impairment. Financial constraints did not allow her to get an eye treatment. However, her miseries were subdued as she heard the news of Care Netram. She went for cataract surgery absolutely free of cost. She is extremely grateful to Care Netram for restoring her lost glory with good vision.

"ThankYou CareNetram Team for restoring my long-lost hope and glory!" - Labanga Jena

Name: Manu Das

Address: Patana BBSR

Age: 54 years

Manu Das is an angler by profession and earns a living out of it. He wakes up early in the morning and sets out each day with his finishing net. However, loss of proper vision due to cataracts in his eyes casted a dark shadow in his life. Financial sustenance became a major problem until Manu heard of Care Netram camp offering free eye checkups and treatments. Care Netram offered free cataract surgery to Manu Das which renewed his lost job. He can now continue his fishing with passion without any hindrance.

"I almost lost hope! Extremely thankful to Care Netram Team for your timely assistance" - Manu Das
